#### Old Business:

Eric Oberg talked about putting together the float and the parade, our float got 3 place in the novelty class. Dick Robb noted the plywood A-frame for the float is coming apart and will take a lot more work next year. Royce Tivel noted Dick is a good draftsman and that maybe he could come up some plans to kick around. Dick suggested some sort of carrier show and Royce suggested a helicopter. Safety concerns were voiced and it was decided to look around for new ideas.

The subject of food on the public fly-in day came up and was decided against. Eric and Bob Andrew will bring doughnuts and Burt Daggett

will bring coffee, pop and water. Dick noted he invited the Olympia club to our fly-in and also the Toledo swap meet is the 19th of June.

Bob Andrew said the Hunter farm field is in terrible shape, the rain and all the cows have really messed it up.

Eric noted people need to bring

trainers for the public fly-in

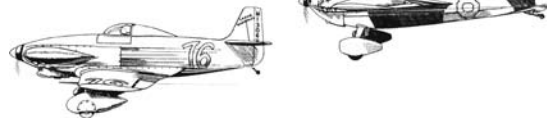

#### New Business:

The Pylon race this month is on the 26th & 27th. We will sell sandwiches, chips and pop. We need to contact Dan Nalley for an approximate head count for the food. Chuck will contact Dan.

Forest Festival parade float (3rd place novelty class)

# Forest Festival parade float

Shelton, WA, RC Flyers On Parade  
By Royce Tivel

On June 5, 2010, Shelton, WA, hosted the annual "Paul Bunyan Parade" during the Mason County Forest Festival. Each Year, the Sanderson Field RC Flyers (SFRCF) and the Lake Nahwatzel RC Float Club (LNRCFC), two local radio-control (RC) clubs, team together to create a float for the parade. Club members assembled on May 29 to begin work on the float.

The float is built on a trailer belonging to SFRCF member Jody Diaz. Members brought the aircraft that would be displayed on the float. After the plywood foundation for the float was attached to the trailer, members placed and temporarily mounted the display aircraft. Photos of the float were taken to document the aircraft positioning and the aircraft were removed until parade day. Before the day of the parade, SFRCF member Sharon

Diaz planned and acquired the background and other decorations to be used on the float, as well as giving the plywood a new coat of paint. At the end of this planning day, members participated in a great barbecue.

Parade day began with a breakfast at Blondies Restaurant, a Shelton favorite. After breakfast, club members began to assemble the float near the parade starting point. The float was assembled, decorated, and an American Flag was attached as a final touch: the float was ready to go. The float was attached to a van belonging to, and driven by, Richard Robb. Richard supervised the attachment

of large banners advertising the RC clubs to the sides of the van. The parade began at 11:00 AM along Shelton's main street, Railroad Avenue.

All club members who participated in preparing the float had lots of fun during the project. Besides preparing the float, members enjoyed the excitement of the parade among the spectators who lined the several blocks of the parade route. The float was awarded third place in its category.

Members who participated in the assembly of the float included Robert Beatty, Burton Daggett, Jody Diaz, Sharon Diaz, Eric Oberg, Richard Robb, Royce Tivel, Charles Kentfield and Troy, Brandon and Dakota Lanning

# June Fly-in / Public day

Although we had great weather and a good turn out of members, we sadly had no public show up. We may have to re-think having the public a week after the parade or maybe advertise in the paper. We obviously need to do something different.
