CHARTER NO. 3079

March meeting at Calvary Fellowship church

Thursday April 10th

## CLUB MEETING

Treasurer's report was read.

Scholarship - Bill still hasn't heard back from SHS. We are doing 2 \$1000 scholarships this year.

Bill Slining, shared a flite test airplane with a 3d printed motor mount.

Safety - Be sure to preflight your airplanes and batteries before the flying season begins.

Upcoming events - The Tom Strom Sr. memorial fly-in is coming up May 31st with a general fly-in on June 1st. We will have some fun fly events at the general fly-in. July 19th and 20th is the NWSAM qualifier.

Rob Konig donated some silicone and epoxy. Thanks Rob.

We got a request for donations from an East coast club that lost their field, general consciences was no.

Jack Fitch asked for help with his radio, I volunteered.

Bob Beatty did a demo on fiber glassing an airplane.

Get Thursdays as a club flying day going again.

Warbird colors does not have a silver paint.

Meeting adjourned at 6:45

### About Spektrum TX and RX updates.

While it appears some people don't have any issues with WIFI updates for Transmitters, more than a few of us do. In case you do, you have to create an account on Spektrum.com where it

will show your registered products. Click on the download updates under that product. It will download an SPMTX.SAX file to your downloads folder. Copy that file (DO NOT change the name) to your micro SD card and insert the card into your Transmitter with the transmitter off. Turn on the transmitter and wait until the screen goes back to the normal screen you get when you turn it on and you are done.

Updating receivers is a different animal. You must have a windows pc and the Spektrum programmer app. You will also need the programming cable. If you are updating a receiver that is installed in an aircraft you **must** power the receiver with the battery in the aircraft and NOT with the "power cable" button in the App. There is no need to unplug servos or anything else. If this is just confusing, contact me.
