

SANDERSON FIELD R.C. NEWS

CHARTER NO. 3079

July 4th Fly-in - Dawn Patrol July 6th

CLUB MEETING

*This months club meeting will be held
on Thursday July 11th. at*

PUD #3

**2621 E John's Prairie Rd
Shelton, WA**

We have 3 Events this month, a **Fly-in on July 4th at Sanderson Field**, Dawn Patrol and golden age fly-in at Hunter Farms Field and a **2 day General fly-in at Sanderson field on July 21st and 22nd**

Welcome to 2 new members Roy Evans and Ted Cohen.

Treasurers report read by Dave Windom as the treasurer was not present.

Jets over Sanderson was a success and brought in \$260, we had 15 registered pilots. Many thanks to all who donated to the cause.

Safety - The main thing that were found at the winter build safety inspections were reversed servos.

Winter Build challenge - 19 maiden flights and we had 41

entrants. It all went well and everyone had fun. Dick Robb made a motion to pay for the field on winter build challenge but Jody refused as he wants to continue paying for it. AMA Jamboree was a success although Friday was very windy and cold Saturday and Sunday were nice. There were 70 registered pilots and 150 planes. Food was great. The district XI VP has given 3 clubs that are already doing the winter build challenge (SFRCF is one) a mini Apprentice which may be used in a special contest in next years WBC. We can just keep it or accept the challenge for next years WBC. Details to come later.

Air show - Set up will be at 11:00 am on Friday June 14th. Please come help if you can. Our booth will be in a different location this year and we could use more people to man the booth. We are still looking for airplanes, bring one if you can. We also need people to help tear down on Sunday after 5:00pm. Club fly-in - There will be a club fly-in on July 4th at Sanderson

field.

Dawn Patrol - Is ready to go on July 6th at Hunter Farms auxiliary field, coffee and doughnuts in the morning and hot dogs for lunch.

Porta potty still needs propping up.

Seaplane event on June 22nd at lake Isabelle next to the boat launch 9:00am.

We have a general fly-in one day and a fun fly the other day the weekend of July 20th and 21st.

Control line inquiry - Some control line people are looking for a place for a couple contests which would be held on the main runway down by the gate and in the grass down there. There was no opposition.

The Port is going to require having the gate monitored at events. They also don't want anyone to show up for an event the following day before 8:00pm the night before.

TCMAA is looking to start up a 2 pole pylon race class using eFlite war bird foamies, if you are interested see Tom at the hobby shop in Lacey.

Meeting adjourned 7:50

WEIGHT LIFT CHALLENGE

At the AMA jamboree 3 clubs who are already doing a winter build challenge were presented with a mini Apprentice electric airplane (one of which was SFRCF) and informed that a contest would be held in conjunction with next years winter build challenge. No details were given at the time but have since been provided...

Attention All District 11 Clubs! I have a Challenge for you. Ready to test your mettle against other clubs to see who's best? Winter build Mini-Apprentice Weightlifting Challenge Must use a Mini- Apprentice RTF from Horizon hobby. All stock electronics, flight stabilization system, radio, battery, ESC, Prop, and servos must be used from the kit.

Fuselage must remain unchanged except for the following mods:

Change Wheels

You can add a cargo pod or weight box and attach to fuselage, no other mods to fuselage.

Allowed Modifications:

You can change the wing, tail, and horizontal stabilizer however you like.

Again: You can change the wheels.

You can add a weight holding pod to the belly of the fuselage, or under wings

For Flight: Aircraft must Rise off ground under it's own power, unassisted in any way. IE no pushing, bungee, rocket assist etc.

You must make an unedited video showing the scale set to zero, and then adding the aircraft to the scale. (can use a piece of foam or similar to support the full weight of aircraft hands free, but scale must show zeroed with this foam/ support, minus the aircraft)

Video must show the empty weight on the scale ready to fly with battery, followed by a take-off, fly the pattern, and successful landing with minimum of 1 minute flight time in the empty configuration.

Followed immediately by Then showing of load the aircraft with weight, and show the unedited video of adding weight, weight on the scale, followed by successful take-off, pattern, landing with a minimum of 1 minute flight time at full lifting weight.

Both empty and loaded flights must be same day, within an hour of each other. You may make numerous flights to increase weight carrying, or new design changes within the period of

1 June 2019, and 30 May 2020. You may submit as many videos as you like to the AMA District Facebook page.

You also must show pictures either via Dropbox, or on Facebook club pages, or the AMA District Facebook page showing your builds, and videos. This will prove your work, show the team involved with the build etc.

If your team has at least 1 under 18 member of the build and flying, you can add ½ ounce of weight to your flying total weight.

Must have plenty of documentation showing an under 18 was involved with the build and or flying. Video is even better!!

WHAT WILL THE WINNING TEAM RECEIVE?

Up to 5 adult members- AMA dues paid for by the District for 2021, and their respective club will get their dues paid for by the District for 2021!

Under 19 receives free AMA anyway.

So..what are you waiting for? Let the building begin!! And most of all, have fun, and bring a kid along for the ride!

OLYMPIC MUSEUM AIR SHOW

It was another great air show this year, we had lots of people stop by and look at our models. We also had lots of help for setup and tear down. Sadly the F4U Corsair was down due to propeller problems so we didn't get to see it fly. The P-51 flew and the last flying HH 43 Husky helicopter, the weather was great. It made for a great fathers day!

DUES ARE \$75 IF PAID BEFORE JAN 1ST, \$100 THEREAFTER.

IF YOU PAY BY MAIL SEND YOUR DUES, PROOF OF 2019 AMA MEMBERSHIP AND A SELF ADDRESSED STAMPED ENVELOPE TO THE TREASURER:

**MARK PENTONY
180 E VUECREST DR.
