

SANDERSON FIELD R.C. NEWS

CHARTER NO. 3079

Meeting at Sanderson field in July

CLUB MEETING

The PUD has closed the meeting room access until further notice due to COVID-19

We made \$438 in donations the South Sound season opener, the event went pretty well considering it was very windy. The EDF scale event was postponed due to weather. The new date for the EDF scale event will be July 18th and will replace the Lucky hand fun fly.

The AMA jamboree was pretty lightly attended this year. The District XI representative has asked if we would like to host next year's Jamboree. There are pluses and minuses to work out (such as the \$700 a day to rent the field) before it will put to a vote.

Mount Rainier radio control Society is holding a EDF jet rally on June 26th, \$20 entry fee includes lunch. The \$5 raffle is for a JAS-39 Gripen 80mm jet. There is a flyer on our "other events" page on our website.

We need to have a runway clean up work party, lots of grass and the lines need to be repainted and extended.

Oysterfest is on, location is still to be determined. Bob Trienen was appointed head of the committee and will get us signed up and keep us posted.

Welcome new member Jim Groves.

Meeting adjourned 7:30

The model aircraft safety test is now available at:

modelaircraft.org/trust

More info and frequently asked questions are available at:

<http://www.modelaircraft.org>

This is something everyone who flies needs to do to be in compliance with the FAA. Once you finish the test, a certificate will appear on the screen and **it is up to you to Print, screen capture or even take a picture of it while it's on the screen as there will not be another chance to get proof you took the test.**

This test is a no fail test, if you get a wrong answer it will guide you until you get the right one.

Your certificate will look like this, it doesn't take long to take the test. It would be faster if the web site wasn't so slow. I'm sure lots of people are taking it right now.

SCALE FLY-IN / EDF SCALE MEET

Welcome to the 2021 Sanderson Field Scale Fly-In!

Sanderson Field RC Flyers field features a massive paved runway surface and a large amount of overfly area, as well as plenty of parking space for RVs and trailers. This is a great field for small to large scale aircraft! Tons of pit area for awnings and chairs, and concessions will be available on site for lunch. There will be judging and awards for several categories, as well as a great prize raffle after the event. There will also be a tailgate swap meet going on all day as well!! Grab your favorite scale model and come on out and enjoy this beautiful venue and a day filled with great looking scale aircraft!

Directions: Go North on HWY 101, go past the main entrance to Sanderson Field. Sanderson Way is the next turn to the left. This is the industrial entrance. Turn left on Sanderson Way, the road winds around a little but stay on the main road. Watch on the left and you will see the runway we fly from. Go past the gate that looks down the runway to the second gate.
