

SANDERSON FIELD R.C. NEWS

CHARTER NO. 3079

Club Fly-in at Sanderson Aug 4th

CLUB MEETING

This month the meeting will be held on Thursday Aug 9th.

AT THE FIELD unless the weather is bad. Then it will be

at PUD #3

2621 E Johns Prairie-Road, Shelton, WA

We have a fly-in at Sanderson Field Sat. the 4th, Lunch will be potluck. The club will supply the hamburgers and hotdogs. bring your favorite side dish. A fun fly will be held also. Hope you can make it.

Minutes Read by John Tupper and accepted as read.

Treasurers report read and accepted as read.

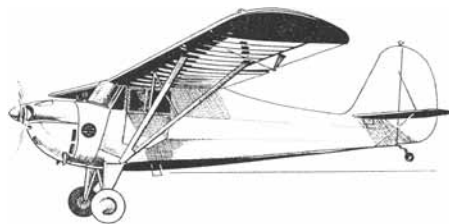

Old Business:

Pilot barriers - John Tupper only had conduit so we will have to buy 2" schedule 40 PVC pipe. The work party for assembly of the barriers will be Thursday July 19th at John's Tupper's house. W 51 Olympic View dr. Shelton Wa (Lake Nahwatzel). Bring a float plane if you have one. Tom Strom will check on net for the barriers.

Tom Strom thanked Bob Andrew and Gordie Osberg for talking to Paul Hunter about cutting the hay at the field. This year it will cost \$400 but they will rake, bale and remove it.

Chuck Kentfield motioned to give Burt Daggett \$400 for equipment repair. seconded and passed.

No Schedule has been set but

volunteers for the mowing at Hunters are:

Bob Andrew, Gordie Osberg, Bob Beatty, Chuck Kentfield, Dick Robb, Steve and Dee Grout

Thanks to Tim Strom for finding a 2'x16' aluminum plank for a bridge.

Bob Beatty motioned we buy the bridge, seconded and passed.

Dick Robb motioned that we have food and a fun fly at the upcoming August 4th fly-in.

The club will provide hot dogs and hamburgers, the rest being potluck.

Tom Thanked the people who helped put the start stands together and also Dick Robb and Dave Fisher for pre cutting the pieces. The job much easier with the pieces pre cut.

Shelton Morning Star Lions would like to borrow our BBQ for the weekend of July 14-15. It was unanimously agreed that they could which brought up the fact that we don't know where the propane bottle went. Bob Treinen motioned the club buy one but Darcy Niebling donated a propane bottle. Gordie Osberg noted that the cable gate at Hunter is drooping almost to the ground, we will check it out at the fly-in this weekend. Bob Treinen has a 4x6 post and cement if we need it.

Dick Robb noted a couple of upcoming events:

Saturday July 21st is a float fly hosted by the Olympia club at lake Isabella.

Saturday July 25th is a Scale oriented fly-in at the Olympia club site at the Mima mounds gun club. Marc Wenz was appointed to buy a no parking sign for the gate at Hunters.

John introduced new members Steve and Dee Grout

Meeting adjourned at 7:49

Hunter Farms

I'm sure everyone will be happy to hear the Start stands and pilot barriers have been (mostly) completed. We also have a bridge for the ditch that is usable but not completely installed. The surrounding area has been cut but as of Sunday night it hasn't been picked up. Once the hay has been removed we'll probably need a work party for some more clean up. The runway and Pits/parking areas were mowed last Thursday so about due again.

Training night (every Thursday 3pm to dusk, weather permitting)

Training night is going well, I believe there are 4 new pilots being trained and plenty of time in between for some flying as well. This picture was taken last Thursday night. There wasn't much training or flying as the wind was howling. John Tupper managed 1 flight with his Apprentice, then got blown over after landing and Darcy Niebeling flew his Kaos a couple of times.

DUES ARE \$100.

IF YOU PAY BY MAIL SEND YOUR DUES, PROOF OF 2012 AMA MEMBERSHIP AND A SELF ADDRESSED STAMPED ENVELOPE TO THE TREASURER:

Tips and Tricks

—From the Lewes RC Club, Lewes DE

Protecting Hinges

Petroleum jelly often has been used on pinned hinges to prevent epoxy glue from sticking to the hinge joint; however, it is difficult to get just the right amount on the hinge and to make sure the hinge is completely coated. A very cool way is to melt the petroleum jelly in a small dish such as a dessert dish (an oven-safe type, of course). Use only enough to melt to a depth of about 1/6 of an inch. Fold the hinge and dip the pinned end into the melted jelly.

Tricky Decals

Have you ever wanted to place a graphic or numbers on your model but find cutting them out of MonoKote just too much effort? Try tracing paper available at craft or office supply stores.

Here's how to do it with a computer and scanner:

Scan your artwork and save it. Print it on thin tracing paper. Cut it out and stick in on your airplane by spraying the back of the tracing with adhesive.

If you like to fly in the rain, you can waterproof the finished product by spraying it with clear spray paint before you place it on your airplane. Unlike a commercial decal with a totally clear background, the tracing paper will be barely visible, but it's not that noticeable.

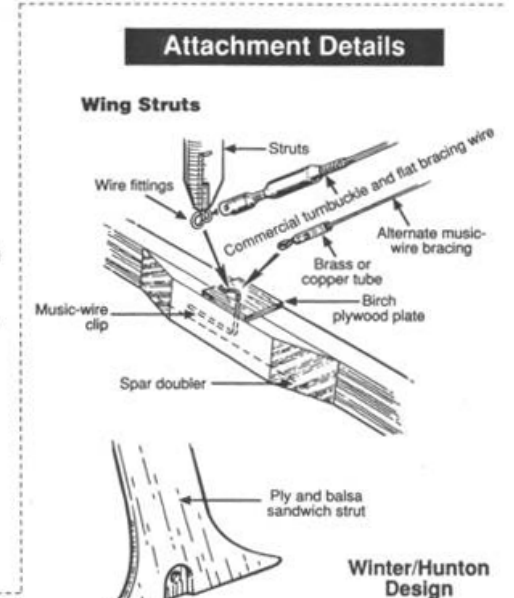

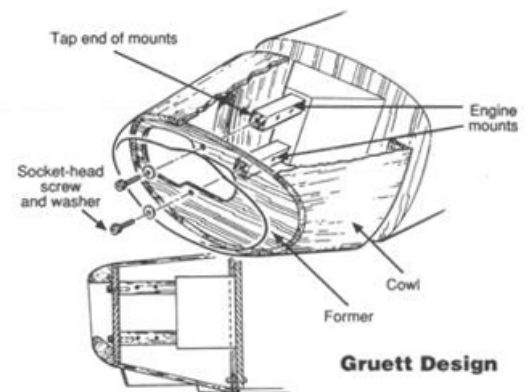

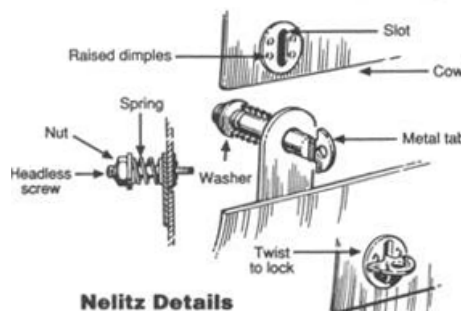

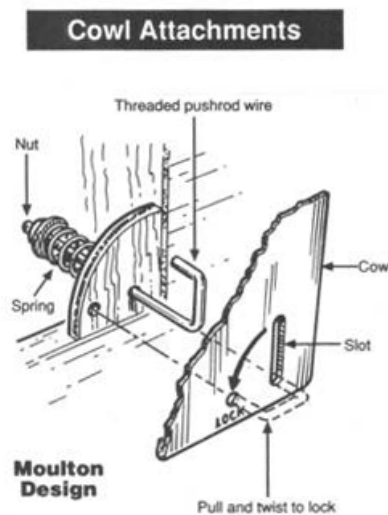

Convenient Clean Up

Want a nice, neat, convenient way to clean up that airplane? Use baby wipes—those soft wipe tissues that come under various brand names and are packaged in handy plastic boxes.

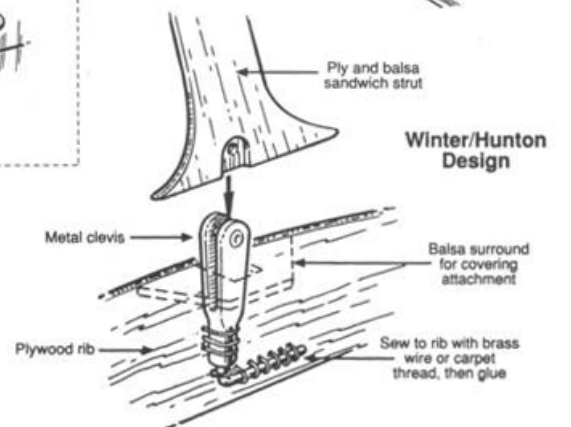

The wipes must contain some kind

of cleaning agent because they remove oil well and the lanolin acts like a polish.
